

# SURVIVAL 275

275N inflatabe offshore sailing lifejacket approved to DIN EN ISO 12402-2. Integrated deck safety harness with textile D-ring. Ergonomically pre-formed shoulder area for more comfort. 275N lifejacket suitable for long-term use. Longer cut for the SURVIVAL series. Faster righting moment with the SURVIVAL WINGLET bladder technology. Designed to take PLBs or SARTs.

BUOYANCY CLASS	BUOYANCY CHAMBER	APPROVALS
		

## STANDARD EQUIPMENT AND CHARACTERISTICS

The SURVIVAL 275 is an Offshore Sailing Lifejacket. It was ergonomically developed with more freedom of movement for the head and neck. That's the definitive design element in this SURVIVAL model. The secret is in pre-forming the shoulder area. The lifejacket remains stable and doesn't 'load up' on the back of the neck.

An integrated harness is equipped with a textile D-Ring to avoid any kind of scratching on deck.

The shorter cut and rear padded webbing harness all add to the wearer's comfort but it's not short on safety – the new SURVIVAL bladder technology for better freeboard and turning power as well as having a front 'Click' buckle, crutch strap, sprayhood and harness.

# ADVANTAGES

Integration of emergency transmitters

This lifejacket is designed to take the AIS-SART easyRESCUE A040-BW-COM. Through an available extra pocket further transmitters may be integrated

- ACR ResQLink
- Ocean Signal PLB1
- Kannad Safelink R10

## Approvals

- International Standard DIN EN ISO 12402-2
- DIN EN ISO 12401 (integral harness)

### Features

Performance Class (ISO 12402)	275 N
Method of Inflator	Automatic inflator 4001S
Buoyancy	280 N
Type of buoyancy	Inflatable
Type of clothing	Heavy weather clothing
Lifting becket	Yes
Buddy Line	No
Approval	CE
CO <sub>2</sub> -Cartridge	60 g CO <sub>2</sub> Dock
Inspection window	Yes
Size / Body weight	over 50 kg
Integral harness	Yes
Emergency light	Optional
3M® reflective strips	Yes
Back section	Padded back strap, Vertically adjustable back strap
Crutch strap	Yes
Protective cover	Cordura
Buoyancy chamber type	SECUMAR Winglet buoyancy chamber, SECUMAR Duo Protect, dual walled system, retro-reflective strips, dedicated light attachment point, in protective cover
Integral pocket for ELT	Yes, EasyRescue
Buoyancy chamber	Winglet
Specifications	CE, Harness, inspection window, Sprayhood
Spray Hood	Yes
Standard equipment	In protective cover, Softshell neck area, oral valve, whistle, manual override, reflective strips, firing mechanism access zip, suspension loop, lifejacket storage bag
